

## **Friday 29.10**

08.00-09.00 Registration

### **Room-A**

09.00-10.30 Liver Imaging

- Focal lesions in non-cirrhotic liver
- Focal lesions in cirrhosis
- Diffuse liver diseases
- Post-treatment imaging

10.30-11.00 Break

11.00 -12.30 Pancreatic Imaging and Intervention

- Imaging of pancreatitis
- Percutaneous interventions in pancreatitis
- Imaging of pancreatic tumors and tumor like conditions
- Cystic pancreatic tumors.

12.30-12.45 Break

12.45-14.15 Oral Presentation Session I: Abdominal

14.15- 14.30 Break

14.30-15.30 Lunch symposia I

15.30- 16.00 Break

16.00-17.30 Lecture Session: Genitourinary Imaging

- Imaging classification and staging of renal tumors
- Adrenal masses
- Imaging classification and staging of adnexal masses
- Diagnosis of prostatic diseases

17.30-18.00 Break

18.00-19.00 BCR meets Japanese College of Radiology

19.00-20.00 Opening Ceremony

## **Friday 29.10**

08.00-09.00 Registration

### **Room-B**

09.00-10.30 Lecture Session: Cardiovascular Imaging-Practical points

- CT angiography
- Coronary CT angiography
- Cardiac MRI
- MRI in ischemic heart disease

10.30-11.01 Break

11.00-12.30 Lecture Session: Imaging of Pulmonary infections

- Imaging of tuberculous and non-tuberculous mycobacterial infections
- Community acquired and nosokomial pneumonia
- Pulmonary infection in the immunocompromized host

12.30-12.45 Break

12.45-14.15 Oral Presentation Session II: Thoracic and Cardiovascular

14.15-14.30 Break

14.30-15.30 Lunch Symposia I (Room A)

15.30- 16.00 Break

16.00-17.30 Lecture Session: Pediatric Imaging

- Abdominal Emergencies
- Medical renal diseases
- Neonate brain disorders
- Round pulmonary lesions in children

### **Room C**

14.00-15.30 Oral presentation Session III: Neuroradiology, Head and Neck and Musculoskeletal Radiology

**Saturday 30.10****Room-A**

- 08.00-08.50 Workshop I: Diagnosis of carotid and vertebral arterial diseases
- US/ Color Doppler Ultrasonography
  - CTA and MRA
- 09.00-10.30 Lecture Session: Neurovascular Diseases
- Imaging of intracranial aneurysms and malformations
  - Endovascular treatment of intracranial aneurysms and malformations
  - Imaging of stroke
  - Intraarterial thrombolysis: When and How?
- 10.30-11.00 Break
- 11.00-12.30 Lecture Session: Imaging of CNS tumors and infections
- Imaging techniques of CNS tumors: from basic to advanced
  - CNS tumors: Postoperative evaluation
  - Imaging of brain and spinal infections
  - Dynamic MRI CSF imaging
- 12.30-14.00 Plenary Session: Film reading session
- 14.00-15.30 Lunch Symposia II
- 15.30-16.00 Break
- 16.00-17.30 Foundation Course: Musculoskeletal Radiology
- Ultrasonography of muscles and tendons
  - MRI of the knee
  - MRI of the shoulder
  - MRI of the hip

**Saturday 30.10****Room-B**

- 08.00-08.50 Workshop II: Biliary Imaging and Intervention
- Imaging
  - Biliary stenting
- 09.00-10.30 Interactive teaching session–Imaging and interventions in common clinical Problems.
- A. Pulmonary embolism
- B. GI bleeding
- 10.30-11.00 Break
- 11.00-12.30 Lecture Session: Oncologic Imaging
- Advanced MRI techniques
  - PET-CT
  - Key diagnostic information for the oncologist
- 12.30-14.00 Plenary Session: Film Reading Session (Room A)
- 14.00-15.30 Lunch Symposia II (Room A)
- 15.30-16.00 Break
- 16.00- 17.30 Foundation Course: Tumor ablation
- Liver
  - Lung
  - Kidneys
  - Bones

**Sunday 31.10**

**Room-A**

- 08.00-08.50 Workshop III: US/ Doppler US
- Evaluation of arterial stenosis in different vascular beds
  - Role of US in diagnosis of venous thrombosis and insufficiency
- 09.00-10.30 Lecture Session: Percutaneous interventions in arterial obstructions
- Carotid stenting
  - Renal PTA/stenting
  - Aortoiliac interventions
  - Infrainguinal interventions
- 10.30-11.00 Break
- 11.00-12.30 Oral Presentation Session IV: Thoracic and Interventional Radiology
- 12.30-12.45 **Closing Remarks**

**Sunday 31.10**

**Room-B**

- 08.00-08.50 Workshop IV: Percutaneous biopsy
- Abdominal
  - Thoracic
- 09.00-10.30 Lecture Session: Breast Imaging
- Imaging of breast Ca.
  - Pitfalls in breast imaging
  - MR mammography in breast lesion evaluation
  - Breast biopsy
- 10.30-11.00 Break
- 11.00-12.30 Oral Presentation Session V: Breast Imaging/Pediatric/Miscellaneous
